

## Neoptide Expert Serum

Efficacy and tolerability  
on the hair and scalp after  
hair transplantation

**DUCRAY**  
SCIENCE DERMATOLOGIQUE

# NEOPTIDE EXPERT

**1**  
country

**30**  
subjects  
100% Men

### Study objectives

Evaluate the efficacy and tolerability of Neoptide Expert serum for 12 months of use after hair transplantation compared to a control group.

**9 dermatological consultations**  
spread over 12 months

USED ALONE

NEOPTIDE EXPERT SERUM  
IN ADULT MEN WITH  
ANDROGENETIC ALOPECIA  
REQUIRING HAIR  
TRANSPLANTATION<sup>1</sup>

#### EFFICACY

According to  
subjects, **slight**  
**to moderate global**  
**efficacy** after  
1 month for

**60%**  
of subjects<sup>2</sup>

#### EFFICACY

**Great improvement**  
in hair growth  
from the 6th  
month after hair  
transplantation for

**86.7%**  
of subjects<sup>3</sup>

#### TOLERABILITY

According  
to doctors,  
tolerability is  
**"excellent"** for

**100%**  
of subjects<sup>4</sup>

1. Observational study no. RV4986A20200299, 1 application of the product per day 2 weeks before hair transplantation then during 12 months after, 30 subjects. 2. Evaluation for 15 subjects. Results for the control group: 21% with slight to moderate global efficacy. 3. Evaluation for 15 subjects, maintenance of the results after 12 months. Results for the control group: 33,33% of subjects with great improvement. 4. Evaluation for 15 subject.
